MENOMONIE – 1890 & THE TAINTERS

A TIME REMEMBERED

A Mabel Tainter Festival of the Arts Publication

A. TAINTER & SON. BANKERS.

In 1886, Captian Andrew Tainter and his son, Louis, purchased this bank building from Samuel B. French and established a private bank, A. Tainter and Son, Bankers. Louis took over the operation of the bank after the death of his father in 1899 and continued to operate it until 1903, the year that the legislature terminated all private banks in Wisconsin.

In that year the Tainter firm was reorganized under the name of the Bank of Menomonie with Louis Tainter, Berta Tainter, Fred L. French and Mrs. Fanny (Tainter) McMillan as stockholders.

It is appropriate that the Bank of Menomonie has underwritten the costs of publishing this booklet with all proceeds from its sales going to the support of the Mabel Tainter Memorial.

Mabel S. Tainter

1866---1886

Mabel was one of twin daughters born to Captain Andrew and Bertha Tainter on December 6, 1866. Irene, Mabel's twin, was born dead. After attending elementary school in Menomonie, Mabel was sent to St. Mary's Hall, an Episcopal boarding school in Minnesota.

Mabel died after what a local newspaper described as a "brief and painful sickness", a condition recorded in the death certificate as "Cancer in the side".

This rare portrait was discovered in 1975 in the negative files of photographer Robet Helsom. On the edge of the glass plate negative is the inscription "Mabel Tainter-1886" and the number and size of prints ordered by the Tainters.

Andrew Tainter, the man

"It was fun, lots of Fun, in those days." It was Captain Andrew Tainter speaking to an interviewer for the book, History of the Chippewa Valley, an 1892 publication that included a brief biography of the lumberman.

For a man who loved to work, who seemed to thrive on it, this was not an unusual statement. There was hardly a task in the entire spectrum of labor within the lumbering industry that had not been performed by him in his lifetime.

In his prime he was slightly under six feet tall and weighed 210 pounds, and although his education was minimal and he was "at home" with the working man he could hold his own in all segments and strata of society.

He led a colorful life. He was married nine years to Mary Poskin, an Ojibwa Indian who bore him five children, and when this marriage failed he easily stepped into the world of social graces represented by his second wife, Bertha Lucas Lesure.

Tainter purchased one-third interest in the Knapp, Stout & Company in 1850 and helped build the company into the largest white pine operation in the world.

In that 1892 volume, Tainter's biographer stated, "Forty-two years ago he began with no capital, save his willing hands and a will-power that yielded to no difficulty, and today he is the wealthiest man in the whole Chippewa Valley."

THE KNAPP, STOUT & CO., COMPANY

1846 — 1901

THE KNAPP, STOUT & CO., COMPANY

.....an Empire in Pine

"When the Knapp, Stout & Company was organized in 1846 its mill had a daily capacity of about 5000 board feet, and most of the labor was performed by the owners. From this small beginning the company developed into the largest lumber concern in the country."

"In 1870 the regular daily output of its main mill at Menomonie was three hundred thousand board feet of lumber, and a second mill turned out quantities of shingled and lath. The concern also operated a boarding house that served two barrels of pork every day, a gristmill and grain warehouse, a general store that did an annual business of three-quarters of a million dollars, a foundry, a machine shop, a wagon and cooperage shop, and a pork-packing establishment. During the depression following the panic of 1873 this huge and diverse enterprise was able to make a profit when other firms were facing bankruptcy."

"In 1878 the partnership became a corporation under the name of The Knapp, Stout & Co., Lumber Company with a captial of two million dollars. Its total yearly output increased from fifty million board feet of lumber in 1871 to double that amount in 1879. This was, according to a contemporary trade journal, probably more than any two other firms in the United States were capable of producing; yet only three years later it had an output of a hundred and fifty million board feet."

"For fifteen years before 1896 it had an average of two thousand men on its payroll. Its production during the half century, 1846-96, totaled nearly two billion feet of lumber."

"Knapp, Stout and Company represented what was perhaps the maximum growth of which a single concern was capable. It came as near being a monopolistic unit as the economics of the lumber industry permitted."

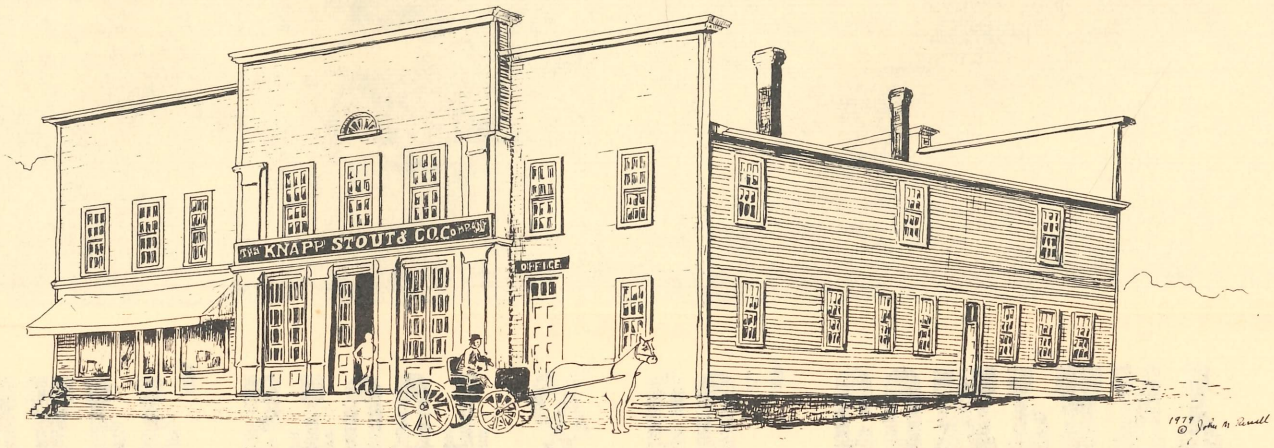
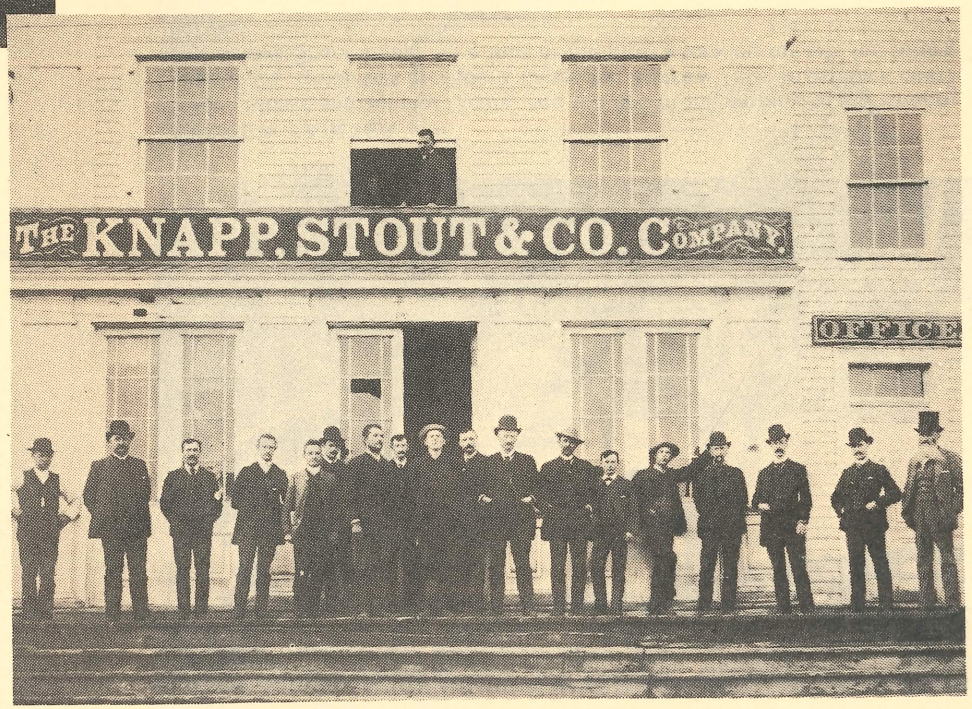
The Company Store



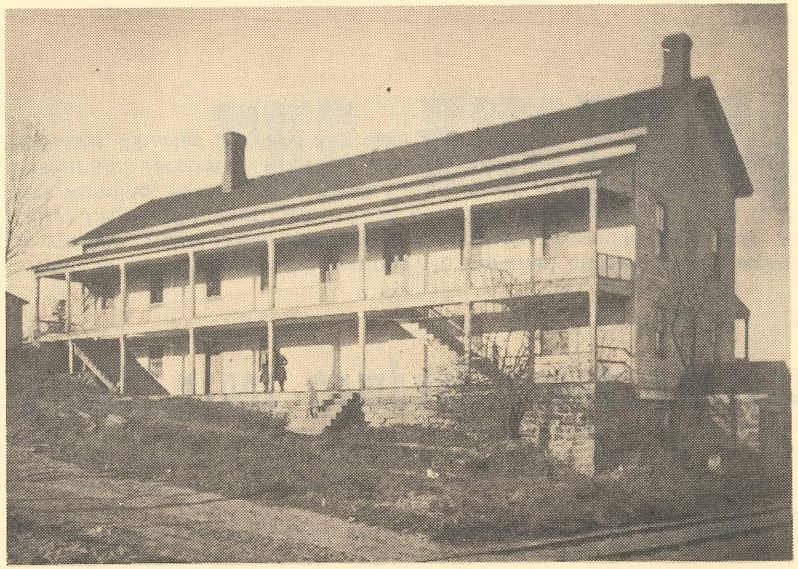
Knapp, Stout & Co. Board of Directors

In the late 1890's these men guided the giant lumbering firm. L to R: W.W. Cassidy, J.H. Stout, P.E. Wilson, J.H. Douglass, J.H. Knapp, H.E. Knapp, T.B. Wilson, L.S. Tainter, F.D. Stout and H.L. Stout.

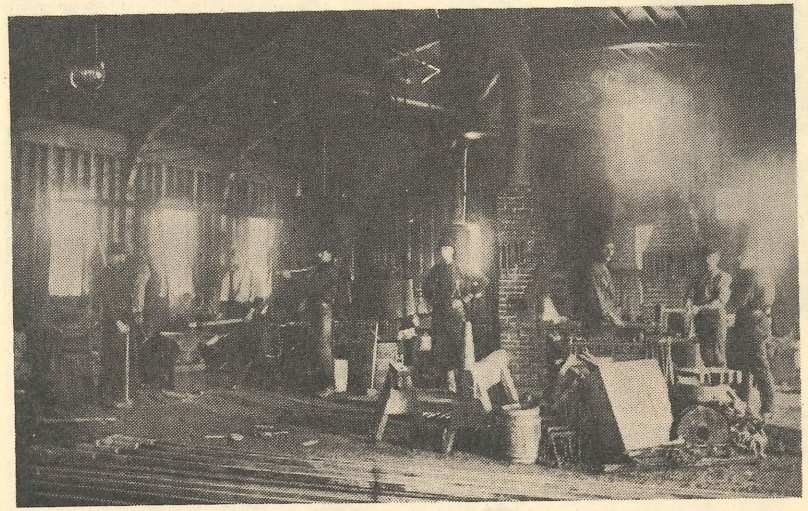


Knapp, Stout Company Store Personnel

Many of these men left the Company to start new careers as businessmen. In the window: Nobel Doyle and John B. Amundson. Ground level: L to R: Andrew Kelly, J.H. Hardy, Olaf Losby, Fred Crandell, Delancy Lewis, John C. Wilcox, Sam Running, Bert E. Scott, Chris Gesell, Bernt Bredeson, Egbert Marks, E.P. Dalrymple, Jerome C. Phillips, James Messenger, Charles F. Leonard, John Hopwood, Charles Barnard and George Barwise.

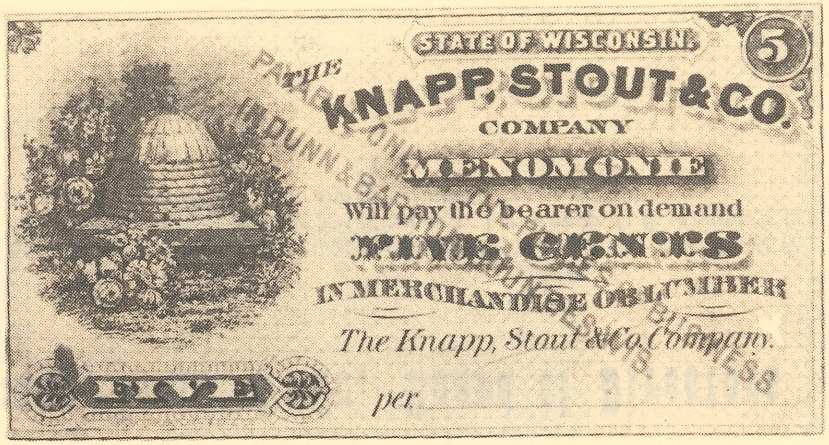


LAND OFFICE
This building was the land sales office when the Memorial was dedicated but it had served the Company as a meeting hall, church, school, and boarding house in earlier years.

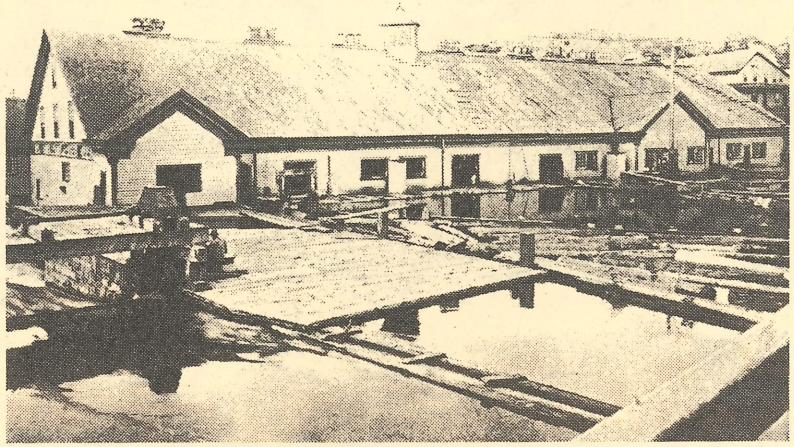


BLACKSMITH SHOP
There were five forges in this shop that manufactured and repaired much of the equipment used in the mills. Some historians believe that the first motorcycle and outboard motor in the U.S. were invented here by Harry Miller in the 1890's.

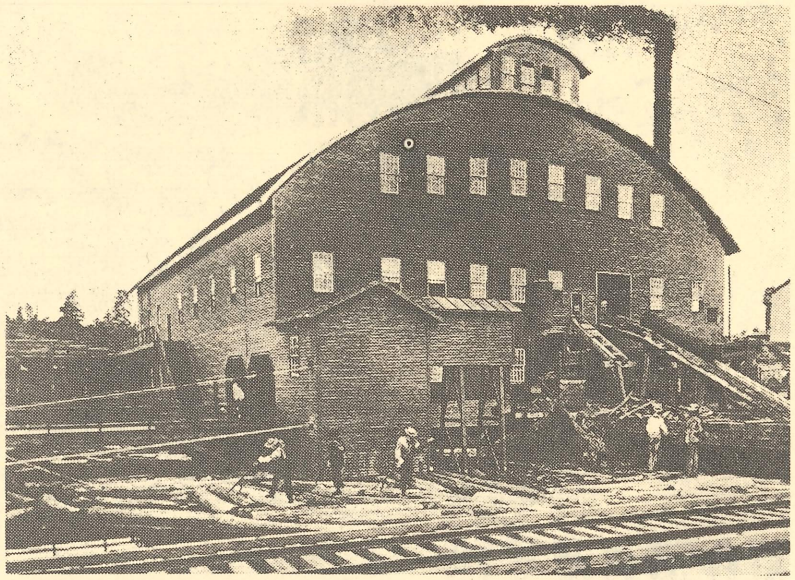
ANDREW TAINTER
Alex Moose and Johnny Coady, two Indians in the employ of the Knapp, Stout & Co., guide this birchbark canoe for Andrew Tainter (in dark coat) and James Bracklin during a tour of the pinery looking for sits for future harvest.



SCRIP
Workers of Knapp, Stout & Co. were paid with Scrip that was only negotiable at the company store.



Water Mill



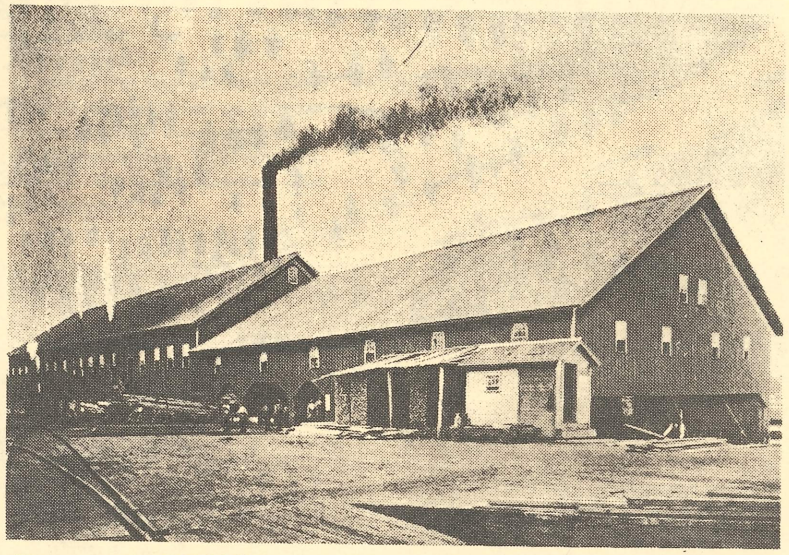
Shingle Mill

WATER MILL

This was the largest of the three mills in Menomonie and, as the name, suggests used water power to run the three large gang saws and other machinery within the building.

STEAM MILL

Steam was the power source for this mill on a site now under the waters of Lake Menomin.

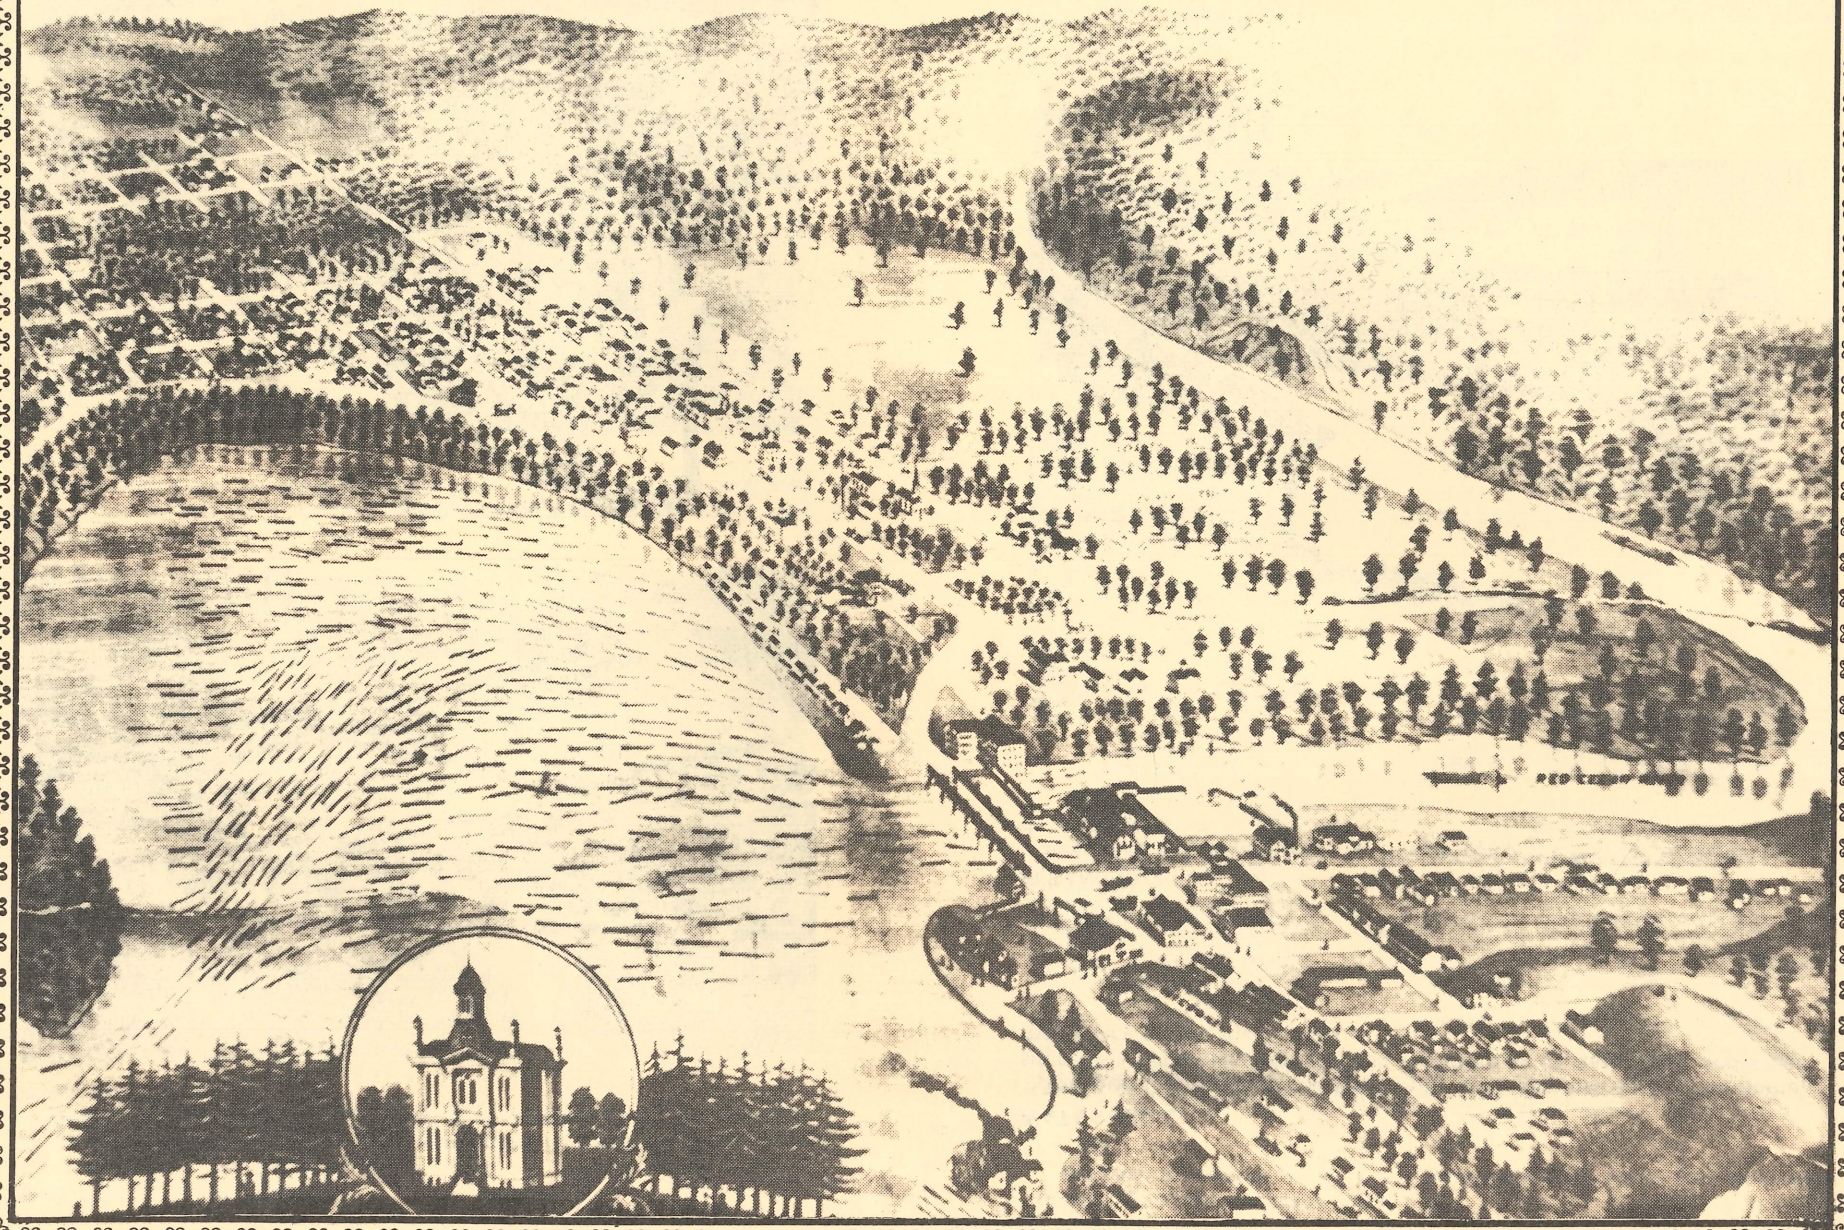


Steam Mill

SHINGLE MILL

Wilson Creek was nearly straddled by this huge mill that was primarily used to produce shingles. It is believed that this site was the location of the earliest mill erected in 1822.

MENOMONIE in 1872



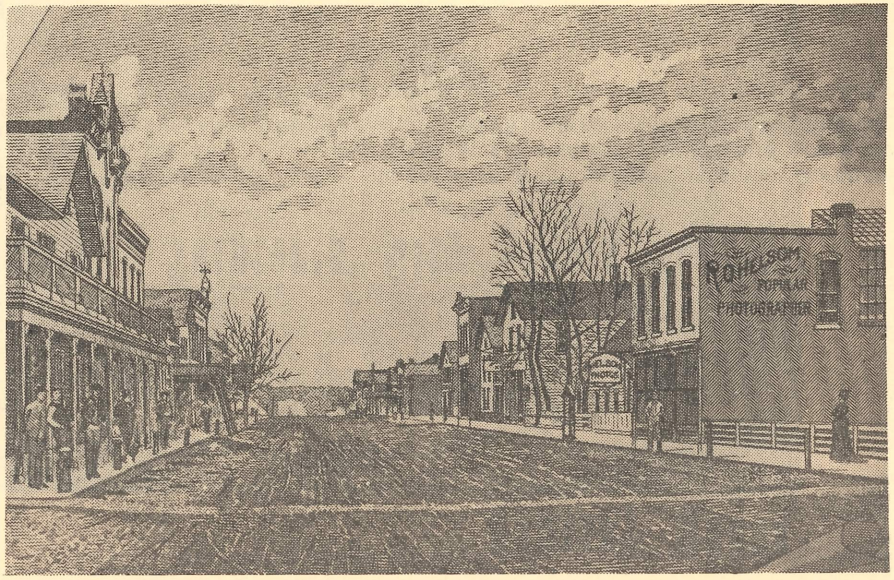
1890 Skyline

MENOMONIE

There are indications that as early as 1818 trappers noted the fine stand of pine in the present Menomonie area but the first dam and mill was erected on Wilson Creek in 1822. Twenty-four years elapsed before Captain William Wilson came in 1846, with John Holly Knapp, and established a home in the valley. This was the beginning of Menomonie, first called Menomonie Mills, that was platted and named in 1859. In 1882, the city of Menomonie was incorporated.

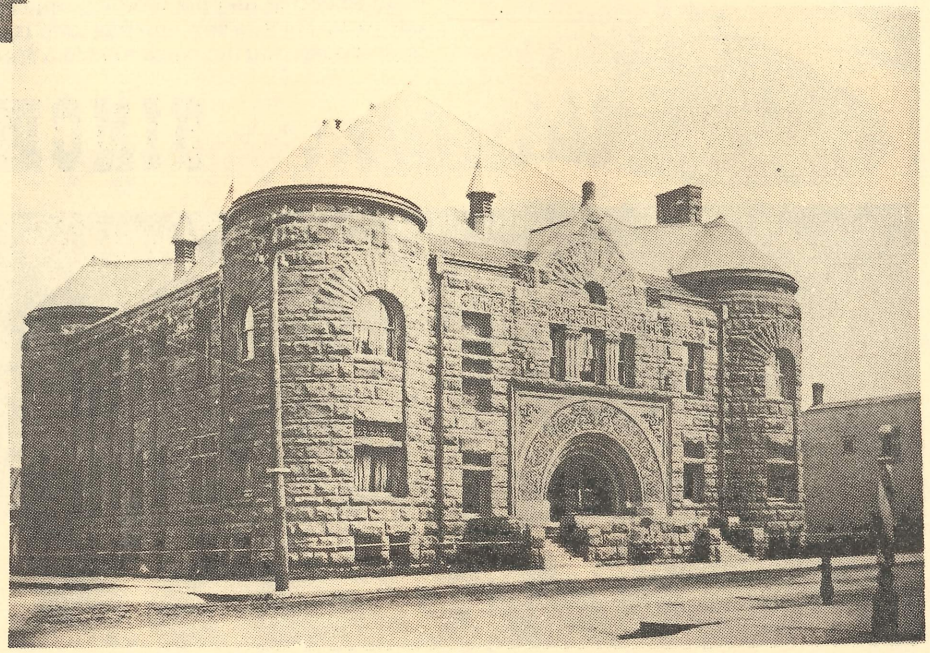
Main Street

Broadway



Tainter's City Livery Stable

Owned by Andrew Tainter and operated by his brother, Jeremiah Burnham Tainter, The City Livery, Board and Sale Stable occupied the site where the Mabel Tainter Memorial now stands. It was a huge sprawling frame building that measured about 120' x 120'.



Mabel Tainter Memorial

Bertha and Andrew Tainter conveyed this building, the Mabel Tainter Memorial, to the citizens of Dunn County in June, 1890, and they requested that a Mabel Tainter Literary, Library and Educational Society be formed for "the delivery of lectures and debates, the practice in declamation, and public speaking on literary, scientific, historical, social and moral topics, and for rational, liberal or Unitarian religious instruction, and music concerts or dramatic representations."

Hotel Royal

Menomonie House

Central
House Saloon

In 1890, there was over a dozen hotels and boarding houses located throughout the city, most of these were located in the downtown district.

Central House

Concert Hall

D. Stori operated this theater building that housed a 600 seat auditorium on the second floor. He maintained a saloon in one-half of the ground floor of the building while renting out the other half to a series of businesses that included the Haffie Bros. Cigar aActory shown in this picture. Fires plagued this building by partially destroying it in the 1890's and then leveling this and other nearby structures in 1922. After the first fire it was reopened as The New Opera House. There seemed to be a gentlemen's agreement between Stori's Concert Hall, the Smith's Grand Opera House and the management of the Mabel Tainter Memorial Theater, no to run opposing attractions on the same nights if it could be avoided.

Grand Opera House

In 1869, Grob's Hall, the largest building erected in the business district at that time, was the cultural center of Menomonie until a fire leveled the building in 1884. This building was constructed on the site. Fred and William Smith acquired the building when their father died in 1890, estate the year the Memorial was dedicated. This was a second floor theater with a large stage at the east end. It had a potential capacity of 1000 but the average seating accommodated a little over 600. It hosted many traveling road shows in the late 1800's and was a center of meetings of local organizations. A short time after the turn of the centruy the Smith brothers converted a ground floor store area into the Grand Theater, a motion picture house that operated until after World War II. This building was demolished in the mid-1960's to make way for a parking lot!

Key to Map of 1890 Menomonie:

1. **THE MABEL TAINTER MEMORIAL BUILDING**, built on the site formerly occupied by the Tainter's City Livery Stable.
2. **POST OFFICE**
3. **CENTRAL SCHOOL**, elementary and high school building, destroyed by fire in February, 1897.
4. **A. TAINTER & SON BANK** — Captain Tainter and his son, Louis, opened this bank on February 8, 1886, with S.B. French, cashier, and his son, Fred, serving as assistant cashier. Attorneys Samuel Hunt and Charles Freeman maintained offices on the second floor of the building. W.S. Swenson also had a law office on 2nd floor.
5. **TAINTER RESIDENCE** An 1875 City of Menomonie map shows its existence at that time but news accounts indicate it was constructed in 1877. For many years the home served as a dormitory for Stout Institute until it was demolished and replaced with the present dormitory complex.
6. **TAINTER STABLE** After Stout Institute acquired the property this building was remodeled into a girl's dormitory called Tainter Annex.
7. **LOUIS TAINTER HOME** Built in 1889-90, it was occupied by Louis Tainter until 1902.
8. **CAPTAIN WILLIAM WILSON'S RESIDENCE** Upon his death in 1892, the home was purchased and extensively remodeled into a grand Victorian home by his son-in-law, James H. Stout. Elements of this home are still present in the Wilson Place Museum on the site.
9. **JOHN HOLLY KNAPP HOME** This is the only home built by the three founders of the Knapp, Stout & Co., Company that remains standing today. It is now operated by the Episcopal Diocese of Eau Claire as a conference center.
